

ER251 Graffiti Remover

FEATURES

Cameleon ER251 Graffiti Remover is a mild solvent based, water miscible cleaner specifically designed for the safe and easy removal of graffiti.

Ideally suited for removing graffiti and permanent ink from un-coated and un-protected surfaces, **ER251 Graffiti Remover** has been formulated using more environmentally friendly ingredients than most standard Graffiti Cleaners.

ER251 Graffiti Remover is easily cleaned up with water.

RECOMMENDED USES

ER251 Graffiti Remover can be used to safely remove unwanted graffiti from:

- Bricks
- Cement Render
- Concrete
- *Some previously painted surfaces

**Always check application to previously painted surfaces in an inconspicuous area prior to using. Do not leave for more than 30 seconds before cleaning off. May damage previously painted acrylic surfaces.*

DIRECTIONS FOR USE

Graffiti Paint Attacks: Apply product undiluted to affected areas with a 1-2" brush, using a dabbing motion to work the cleaner into holes and cracks.

Aged graffiti may require scrubbing with a firm brush. Leave the cleaner to dissolve the graffiti for no longer than 8 minutes, and then scrub off using clean water. Allow to dry completely if further applications are required - the effectiveness of ER251 Graffiti Cleaner will be reduced on damp surfaces. High pressure water blasting may be required on particularly porous surfaces.

Previously Painted Surfaces: Always test previously painted surfaces in an inconspicuous area prior to use. **DO NOT** leave on any painted surface for more than 30 seconds otherwise cosmetic damage may occur.

ER251 Graffiti Remover will cover 8 - 10m² per litre at the recommended application rate.

PRECAUTIONS

IMPORTANT. See the Safety Data Sheet (SDS) for health and safety information prior to use.
